

Partial rho | Mac + Inflammatory-Mac

Heatmap visualization showing the partial rho values for Mac + Inflammatory-Mac across various cell types and cohorts. The color scale ranges from -1 (blue) to 1 (red). The dendrogram on the left indicates hierarchical clustering of cell types. The color bar on the right indicates Cohort (GBM, IDHm) and Grade (2, 3, 4).

Cell types (rows):

- Reactive.Ast
- MES
- MES.Ast
- MES.Hyp
- AC
- OPC
- Vasc
- Prolif.Metab
- Neuron
- NPC
- Oligo
- chromatin.reg

Cohort:

- GBM
- IDHm

Grade:

- 2
- 3
- 4

Partial rho values (color scale):

- 1
- 0.5
- 0
- 0.5
- 1
